

House Bill #25

In Room 306, if you receive zero, one, or two fines over the course of the entire week (Friday at 10:35), you get to enjoy snack outside until 10:55. If you receive three or more fines, you have to go on the wall for half the recess.

Keeping the recess short (until 10:55) will make sure students do not get so tired that they will not pay attention in class. Also, if it is an indoor recess day, the class will simply stay inside and eat snack.

The bill is signed into law for the population of Room 306 this day, Monday, February 27, 2017 by President Bowen. It will be effective February 27 - June 9.

Signed: President Bowen

Senate Bill #22

If students from Room 306 talk in the hall while traveling to and from a location, they get a warning. The next time a warned student talks, they will receive a fine.

If the whole class doesn't talk in line for a week, the class gets an outstanding.

In addition to this law, if the whole class does everything well going to and from specials, the class will clip up.

The bill is signed into law for the population of Room 306 this day, Monday, February 27, 2017 by President Bowen. It will be effective February 27 - June 9.

Signed: President Bowen
